1 Introduction to Latex

LaTeX is a programming language in a fashion similar to C. In particular, LaTeX code must be compiled to produce a document. This is often done using pdf latex , a program which produces a PDF file from a LaTeX document. In this course, your repositories will come with appropriate Make files.

2 How to run Latex

latex [filename]. text will compile [filename]. text and output the file [filename]. pdf latex [filename]. text will compile [filename]. text and output the file [filename].pdf
